## **DETAILED ACTION**

### ***Oath/Declaration***

1. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

Applicant claimed benefits under 35 U.S.C. 120 for the pct application PCT/SE01/00842. Since the instant application is a 371 of PCT/SE01/00842, applicant should not claim benefits under 35 U.S.C. 120 for PCT/SE01/00842. See MPEP 1893.03( C).

### ***Drawings***

2. The replacement sheets of drawing filed March 17, 2004 have been approved.

### ***Specification***

3. The abstract of the disclosure is objected to because legal phraseology such as said has been used in the abstract. Correction is required. See MPEP § 608.01(b).

### ***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 10-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Salmi et al, figure 7.

Attached to this office action is a marked up copy of figure 7 of Salmi et al pointing out each limitation of claims 10-15. With regard to "said stays transmitting cargo" of claim 14, this is an intended use. If the stays of Salmi et al can transport cargo and meet the claimed structure, then the stays of Salmi et al anticipate those of claim 14.

6. Claims 10-13 and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by figure 1 of applicant drawings. Applicant has indicated that figure 1 of his drawings is prior art. See MPEP 2129. Attached to this office action is a copy of figure 1 of applicant's application with the upper portion, lower portion and sidewalls of the seating pointed out.
